

Reference Schematic

for PlasticLogic display module with UC8156

µController Interface

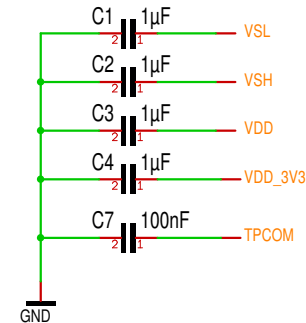

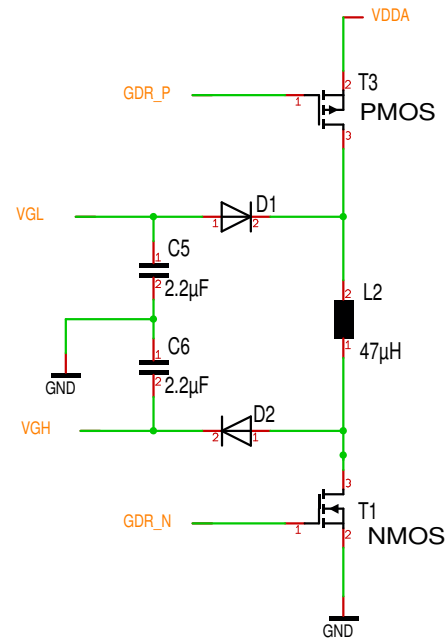

Booster Supply Option

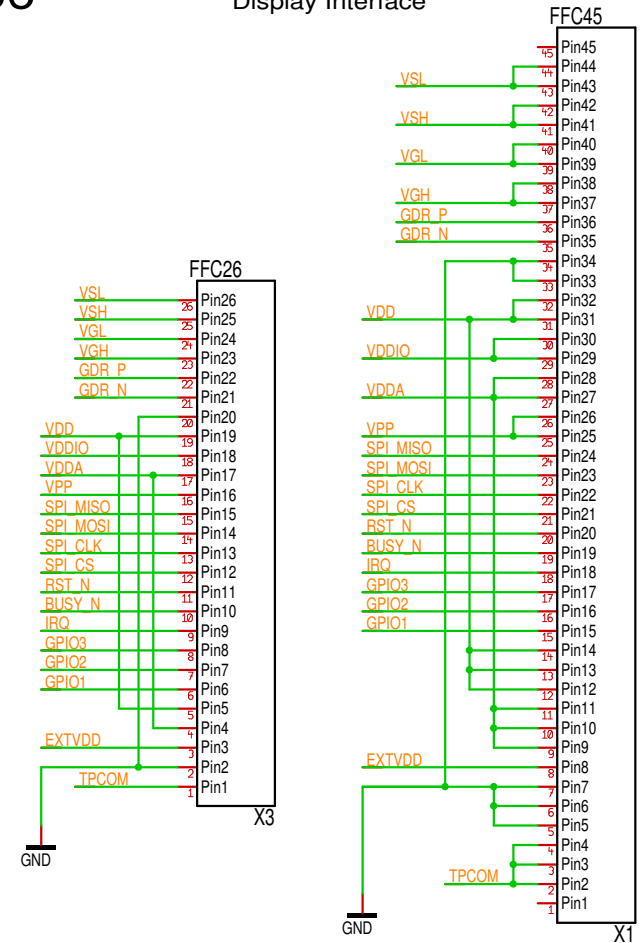

for battery powered (VBATT>3.3V) applications:
fit R6 (otherwise fit R7)

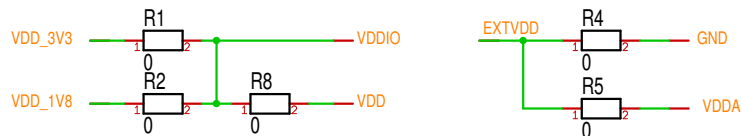

HV Booster

Display Interface

IO Voltage Option
for 1.8V fit R2, R5 and R8
for 3.3V fit R4 and R1

leave this pins open:
VPP, IRQ
GPIO1, GPIO2, GPIO3
